

THE ENTIRE WORLD OF PLASTIC VALVES AND PIPELINE SYSTEMS

**HIGH-QUALITY PRODUCTS
FOR SOPHISTICATED APPLICATIONS
AGGRESSIVE MEDIA AND CHEMICALS**

**OUR PRODUCTS OPERATE
ACROSS THE WORLD IN
THE FOLLOWING SEGMENTS:**

- \\ CHEMICAL INDUSTRY**
- \\ STEEL INDUSTRY**
- \\ DESALINATION PLANTS**
- \\ WATER TREATMENT**
- \\ SEMICONDUCTORS**
- \\ AQUARIUM**
- \\ PHARMACEUTICAL INDUSTRY**

PORTRAIT

OUR MISSION GIVES YOU SAFETY IN CORROSIVE APPLICATIONS.

WE WANT YOUR PLANTS TO RUN PERFECTLY!

ASAHI AV is one of the **global leaders in the development and manufacture** of plastic valves and pipeline systems. Since 1952, we have been the pioneers in this segment, setting **new standards** year by year.

All the components of our products originate from our **own production**. This guarantees high quality standard (DIN 9001), exceptional flexibility and availability. **Our application know-how** distinguishes us in particular.

It has been gained from over six decades of international experience and we are capable to solve complex problems perfectly.

We know how it works.
Since 1952.

CHEMICAL INDUSTRY

WE DON'T JUST SATISFY. WE DELIGHT.

We exactly know the critical processes within the chemical industry.

Our application specialists assess the available process data,
analyse and specify which materials fit your application perfectly.

**HIGHEST MATERIAL QUALITY
AND INTELLIGENT SAFETY DESIGN FOR
ABSOLUTE LEAKAGE PROTECTION.**

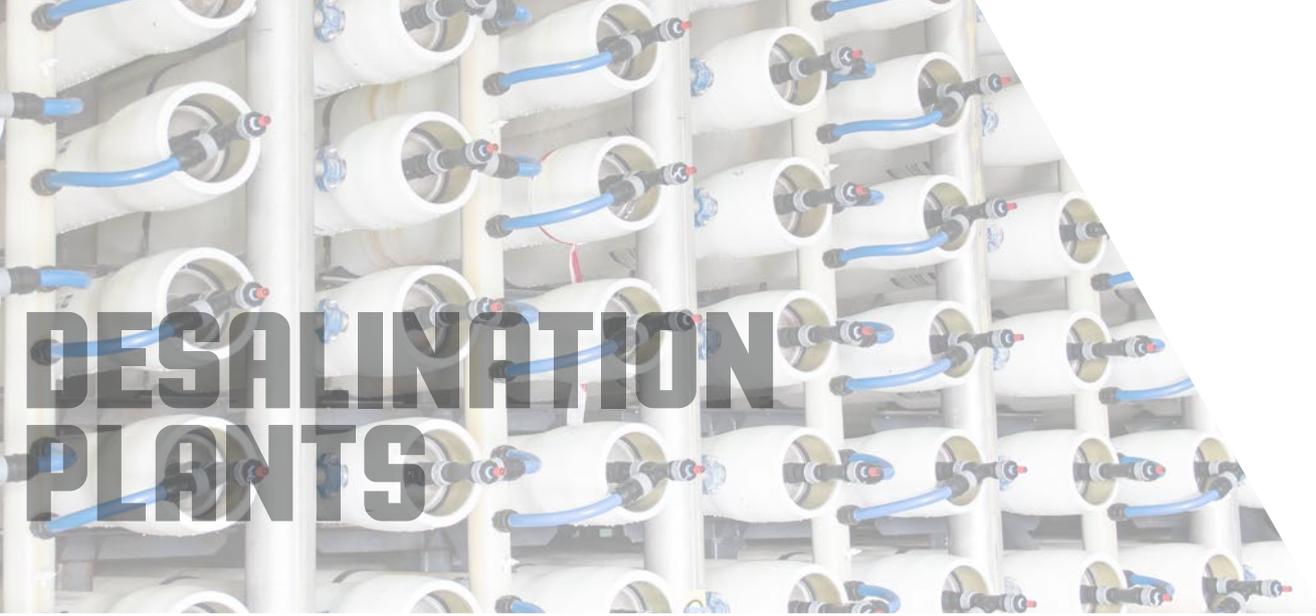

STEEL MANUFACTURING

We keep the hottest media flowing.
We know, that operational safety is of high significance in hot environments.
Our intelligent products promise absolute safety in corrosive applications.

**PERFECT OPERATION IN CORROSIVE
ENVIRONMENTS: RUGGED DESIGN, THICK WALLS,
INTELLIGENT O-RING SEALING TECHNOLOGY.**

DESALINATION PLANTS

The Desalination of water for the extraction of drinking or service water is based on various processes in which we specialize. Our application specialists show you, how we have developed application-specific product solutions.

**SPECIAL PRODUCT SOLUTIONS
PLEDGE SAFE AND LONG-TERM OPERATION
OF YOUR DESALINATION PLANT.**

WATER SUPPLY & SEWAGE SYSTEMS

WE KEEP YOUR MEDIUM FLOWING.

THE EXTREMELY LONG LIFECYCLE OF OUR PRODUCTS GIVES YOU COMPETITIVE ADVANTAGES.

Water treatment concerns manifold industries and requires a long service life of equipment. Our products are in contact with highly corrosive media and meet the demand for extremely high durability.

**HIGH QUALITY PRODUCTS
TO RUN SEVERE APPLICATIONS
STABLE AND SAFE.**

SEMICONDUCTOR

WE THINK SPECIFIC...

Our clients in the Semiconductor Industry handle the maximum corrosive chemicals. Our products are created to ensure ultra-high precision in flow control.

**OPTIMUM SAFETY AND PRECISION FOR
SENSITIVE APPLICATIONS WITH HIGHEST
QUALITY AND SAFETY STANDARDS.**

AQUARIUM

... AND BIG.

OUR PRODUCT SOLUTIONS **FROM DN6 UP TO DN1200** PROMISE THE OPTIMUM AND DISRUPTION-FREE OPERATION OF YOUR SYSTEMS.

Our valves are used in many aquariums and zoos across the world. It doesn't matter whether they are installed above water or under water, sweet water or sea water. We ensure that our products are ideally adapted to the specific requirements of our customers.

**OUR VALVES HOLD MORE
THAN YOU MIGHT THINK.**

EUROPEAN WAREHOUSE

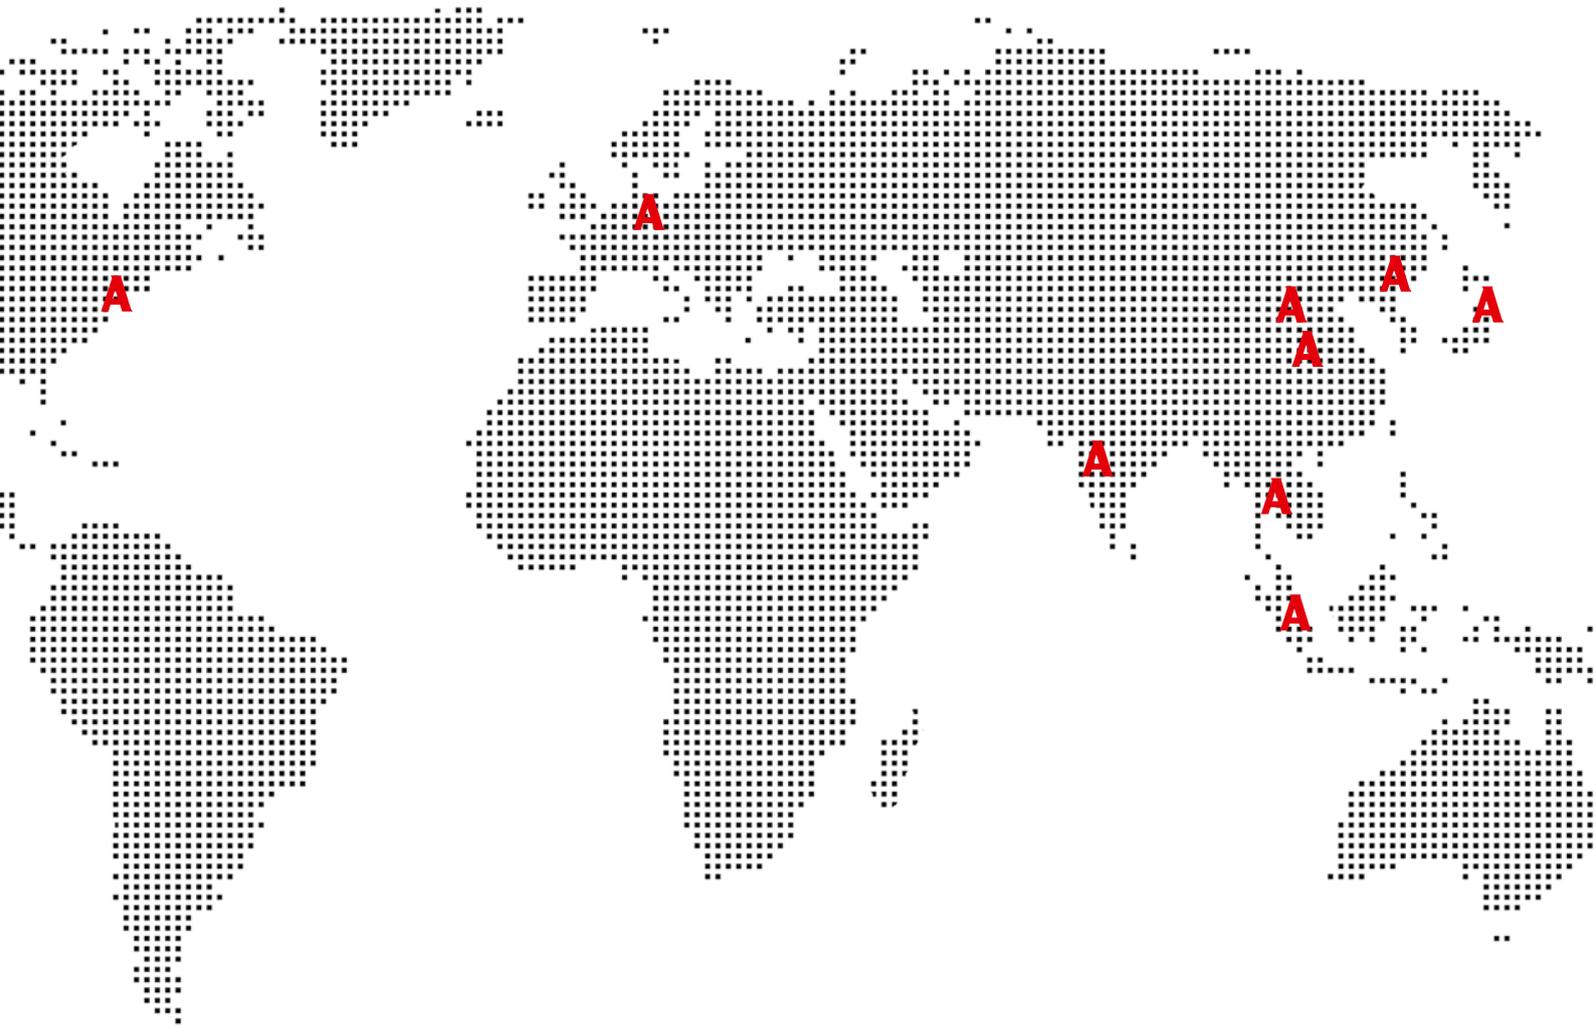

HIGH-END QUALITY PRODUCTS. WORLD-WIDE. EUROPE-WIDE. REGIONAL.

WE ARE CLOSE TO YOU: YOU'LL BE SURPRISED.

Dedication to Quality, Product Safety and Availability, Service and Support.
With our Global Service and Distribution Network we are your reliable partner.
